APPLIED GEOPHYSICS

Contents Volume 33, 1995

Special Issue: Ground Penetrating Radar (edited by T.E. Owen)

Preface
J.C. Cook 1
Editor's page 5
Ground penetrating synthetic pulse radar: dynamic range and modes of operation
S.-E. Hamran, D.T. Gjessing, J. Hjelmstad and E. Aarholt 7
Performance of a GPR system which uses step frequency signals
F.-N. Kong and T.L. By 15
Mars 96 GPR program
Y. Barbin, F. Nicollin, W. Kofman, V. Zolotarev and V. Glotov 27
Numerical studies of the radiation patterns of resistively loaded dipoles
S.A. Arcone 39
Cross-polarization borehole radar measurements with a slot antenna
M. Sato, T. Ohkubo and H. Niitsuma 53
Field experiments for characterization of GPR antenna and pulse propagation
M. Bernabini, E. Pettinelli, N. Pierdicca, S. Piro and L. Versino 63
Analysis of GPR data: wave propagation velocity determination
S. Tillard and J.-C. Dubois 77
Ground penetrating radar: antenna frequencies and maximum probable depths of penetration in Quaternary sediments
D.G. Smith and H.M. Jol 93
Use of soil information to determine application of ground penetrating radar
J.A. Doolittle and M.E. Collins 101
A laboratory scale model for the study of subsurface scattering in low-loss media with applications to ground penetrating radar
I.C. Peden and J. Brew 109
Application of GPR to detecting and mapping cracks in rock slopes
T. Toshioka, T. Tsuchida and K. Sasahara 119
The application of ground penetrating radar for mapping fractures in plutonic rocks within the Whiteshell Research Area, Pinawa, Manitoba, Canada
K.M. Stevens, G.S. Lodha, A.L. Holloway and N.M. Soonawala 125
Radar techniques for indicating internal erosion in embankment dams
S. Carlsten, S. Johansson and A. Wörman 143
Ground penetrating radar applications in engineering, environmental management, and geology
J.S. Mellett 157
Delineation of shallow stratigraphy using ground penetrating radar
D.F. Dominic, K. Egan, C. Carney, P.J. Wolfe and M.R. Boardman 167
Applications of ground penetrating radar in assessing some geological hazards: examples of groundwater contamination, faults, cavities
A.K. Benson 177
Ground penetrating radar for the detection of liquid contaminants
J.J. Daniels, R. Roberts and M. Vendl 195
Archaeology studies in southern Arizona using ground penetrating radar
B.K. Sternberg and J.W. McGill 209

Research Papers

Electrical resistance tomography experiments at the Oregon Graduate Institute
W. Daily, A. Ramirez, D. LaBrecque and W. Barber 227

Electrical resistance tomography during in-situ trichloroethylene remediation at the Savannah River Site
W. Daily and A. Ramirez 239

Characteristics of high-resolution marine reflection profiling sources
N.H. Verbeek and T.M. McGee 251

High-resolution marine reflection profiling for engineering and environmental purposes. Part A: Acquiring analogue seismic signals
T.M. McGee 271

High-resolution marine reflection profiling for engineering and environmental purposes. Part B: Digitizing analogue seismic signals
T.M. McGee 287

Erratum

The gravity anomaly of three-dimensional sources characterized by arbitrary surfaces and density distributions, *Journal of Applied Geophysics*, 32: 177–186.
T. Ruotoistenmäki 297
